

FOR IMMEDIATE RELEASE

March 4, 2022

## UPLIFT Florida Network Will Present at Florida Blue's Community Health Symposium and Sapphire Awards

UPLIFT is thrilled to announce that it will present at [Florida Blue's 2022 Community Health Symposium, Big Issues in Health: A Focus on Health Equity](#) which will take place May 4-5, 2022, at the Hyatt Regency in Orlando.

The Community Health Symposium will feature general sessions, roundtable discussions, professional development, and networking opportunities for more than 500 executives and others from health care, government, higher education, and nonprofit organizations. Presenters and speakers include national, regional, and Florida-based experts on a variety of issues affecting communities, health, and health care policy.

UPLIFT's session is Healthy Aging for All Floridians – A Fresh Approach addressing both the profound impact of the age shift in Florida when one in five Americans will be 65 or over by 2030 and how UPLIFT Florida Network, its partnerships, and volunteer-powered villages will reduce social isolation, help people connect to supports, and age in community while improving equity and outcomes. The event features general sessions, roundtable discussions, professional development, and networking opportunities for more than 500 executives and others.

Join us at the conference by registering [here](#).

**About UPLIFT Florida Network:** Connecting with the people, activities, and community resources that enrich our lives is essential in maintaining our health and well-being as we age. UPLIFT Florida Network is a hub organization connecting people, organizations, and communities in Florida through the development and support of villages. It is a part of the network of over 300 Villages across the nation. UPLIFT's work is made possible with the generous support of [The Patterson Foundation](#).
